Dynamic: Beginner x Beginner

Fill the blank: how could the pair react?

I am going down rabbit hole! 🕳️   💁 Let's get some help!

It is too big and too complex 🎂   🍰 Let's break the problem in smaller pieces!

I still don't understand what to do 🤯   💁 Don't be shy, let's ask for help again

Say no more: I want to start ASAP!! 🙅   🍕 Hold on and listen for a sec. : FOCUS

Wow we are done with this task, I guess… 🙀   💁 Ask a more experienced team member for review

Let's be more ambitious 🧁   🍓 Let's stick to something small first: baby steps

Meeeeeeeeh I hate being a beginner 🥺   🤗 It is part of the journey, we will get there

Fill the blank: how could the pair react?

I say when I don't (and do) understand 🎓 🎩 I explain the context (tell the story)

It is still not clear to me 🌫️ 🎨 I try to be creative with my explanations

I am so nervous, I can't communicate well 😬 🧘 I demonstrate patience, over and over

I want to level up! 🍄 💎 I prioritize learning over productivity

I ask questions (a lot) 🙋‍♀️ 💆 I refrain from judging and compliment more

I challenge the status quo with questions 🙋 ⚖️ I share the trade-offs of each approach

I want to try another way of doing this 🐒 🦉 I accept I can learn from everyone
and share the driving

Fill the blank: how could the pair react?

I want to do it my way (== I am right!) 💪   💪 OK, let's do it your way (and maybe fail first)

I type faster 🤖   🍅 Let's do pomodoro so we can alternate role

... (soloing pair) 😐   📢 Could you think out loud?

Goes super fast 🍄   ⏳ I let them finish + ask questions after they're done

Trust me on this one 🐇💨   🤔 Can you explain to me
(and maybe use the whiteboard
